CAREER SUMMARY

Dynamic Front End Developer with experience in the IT industry, I am dedicated to leveraging the latest UI technologies and agile methodologies like Scrum to develop innovative digital solutions. My career has focused on creating engaging user interfaces and enhancing user experiences, contributing significantly to business growth. With a blend of creative design and technical expertise, I approach each project with a problem-solving mindset. My commitment to collaborative work and continuous learning has enabled me to contribute significantly to teams and projects, driving success and advancing business objectives.

WORK EXPERIENCE

FRONTEND DEVELOPER - ADS FACTORY LLC.

MAR 2023 - PRESENT

- Frontend Leader of 'AdsAssistant.ai', a cutting-edge application designed for digital marketing professionals.
- Lead the integration of OpenAI services to automate and optimize campaign setup and content generation.
- Implement user interfaces using React, applying Redux extensively to manage state and ensure the application's responsiveness and scalability.
- Develop features for AI-driven campaign optimization, enabling automated adjustments to advertising strategies based on performance data, improving overall campaign effectiveness.
- Lead user experience improvements, conducting A/B testing to refine interface design and enhance user engagement.

MOBILE DEVELOPER - KLOUSTR LABS S.A.S.

APR 2022 - APR 2023

- Develop sophisticated mobile applications using Flutter and Dart, focusing on advanced state management with BLoC and Provider. Engineered seamless and efficient user experiences by optimizing app responsiveness and data handling.
- Collaborate closely with product management teams, aligning technical solutions with strategic business goals to drive high user adoption and satisfaction. Play a key role in setting technical direction to achieve market fit and user-centric functionality.
- Lead the implementation of real-time data synchronization and robust offline capabilities in mobile applications, significantly enhancing usability in low-connectivity scenarios and boosting user engagement through improved app performance.
- Collaborate with UX/UI designers and product managers to transform user feedback and behavioral data into actionable insights, resulting in highly intuitive and user-centered mobile interfaces.

FRONTEND DEVELOPER - AFECTUS S.A.S.

JAN 2022 - APR 2022

- Developed and maintained the front-end of the website using Nextjs and JavaScript, ensuring a responsive and user-friendly experience across multiple devices.
- Optimize web performance metrics, improving load times and responsiveness through efficient coding practices and resource optimization.
- Integrate analytics tools to monitor user interactions and engagement, providing valuable insights for continuous improvement of the platform.
